

Grants for Rain Barrels in the City of Falls Church

What? The Village Preservation and Improvement Society (VPIS) is working with the and the City of Falls Church to make grants to reduce the cost of rain barrels for residents of the City of Falls Church. The grant is part of the VPIS “RainSmart” program.

Why Rain Barrels? Rain barrels help protect streams and the Chesapeake Bay, reduce local flooding, and support watering of landscapes during dry periods.

How Do I Apply for a Grant? Please apply prior to purchase. If you would like a grant to cover \$50 of the cost of purchasing and installing up to two rain barrels, complete the application on the other side of this flyer and either email it (i.e.; take a photo of the application and email) to Rainsmartfallschurch@gmail.com or mail it to VPIS/RainSmart Program at PO Box 6824 Falls Church, Va. 22040.

VPIS will review applications and send you an email telling you that you are approved for a grant. You must be a resident of the City of Falls Church; limit two barrels per household per five year period. VPIS reserves the right to limit grants to funds available.

How Do I Install a Rain Barrel? You can find information on how to install your rain barrel on the VPIS RainSmart website (<https://www.vpis.org/environment/rainsmart-program/>). You can also contact a local handyman listed on the website for help in installing a rain barrel.

How Do I Get My Rain Barrel Grant? Once you have installed your rain barrel, take a picture of the barrel and email it to Rainsmartfallschurch@gmail.com. VPIS will mail you a check for \$50 per approved rain barrel.
